

GeoSolv Design/Build Inc. is the leading geotechnical design-build contractor in Ontario providing turnkey solutions to soil problems. Join a dynamic team with a rewarding work environment and learn about the expanding world of ground improvement and alternative foundation systems.

GeoSolv is located at 120 Vinyl Court in Woodbridge, Ontario. We are currently looking for students enrolled in a Civil Engineering Technology program to provide quality control duties for our crews. Typical weekly hours would be 40- 50. We are looking for a hard-working individual with a willingness to learn.

Job Description:

Quality Control Technician for field (construction and QC) and limited office work.

General Responsibilities Include:

- Testing and Quality Control for Ground Improvement work on site including:
 - Documenting the construction of various ground improvement techniques;
 - Performing in-situ testing of ground improvement elements and performing full-scale load tests.
- Assisting other team members (project designer, project coordination, etc.) as needed.

Qualifications / Requirements:

- Excellent written and verbal communication skills.
- Enrolled in a Civil Engineering or Technology program.
- Familiar with standard civil and geotechnical construction.
- Detail oriented.
- Works well with others and is a team player.
- The candidate must have a valid driver's licence and provide their own transportation to and from site.
- Must be willing and able to travel to various sites within Ontario.

Please email your resume to employment@geosolv.ca and reference "Quality Control Technician Position" in the subject line.
